PROJECTS

CookWithMe

HTML, CSS, JavaScript

- Interactive cooking app where users can explore recipes, follow step-by-step instructions, and share their culinary creations with a community of food enthusiasts, and also order ingredients.

Bus Ticket Booking App

ASP.NET Core, Bootstrap, SQL

- Full-featured bus booking platform built with ASP.NET Core MVC. Features real-time seat selection, payment integration, and comprehensive ticket management system.

Data Science Project

Python, Pandas, Numpy, TensorFlow

- Advanced data analysis and machine learning project with comprehensive data visualization and predictive modeling techniques using Python and TensorFlow.

CERTIFICATIONS

- Python for Beginners – Simplilearn
- UI/UX work shop – Figma
- Introduction to DSA – Swayam (NPTEL)
- Introduction to CC – Simplilearn
- Data Science internship – Corizo
